

Fair or Unfair?

LOOK

While watching children at play we may hear a child say “That’s not fair, it’s my turn” or something like that. Kids learn early on to compare things and demand “their rights” as they see them.

1. Can you recall a time when you or your children or grandchildren had issues with fairness?
2. If you’ve intervened with fairness issues, how have you handled these situations?
3. What was the result, and would you do it a different way now?
